Farminpex

## Celebrating 35 Years

### Dear Clients, Suppliers, Colleagues and Friends,

It's been 35 years since my father, Rafael Diaz, founded Farminpex. Over the course of these years, hard work, dedication, and most of all, incredible foresight and wise decisions have propelled the company forward through good times and hardships. My father's understanding that business is about people interacting with people and that therefore, the most sustainable growth is achieved by doing the right thing in service of others and building relationships based on trust and respect, have created a strong service culture that is very tangible within our organization to this day.

Following my 10-year apprenticeship in the company, as I prepare to take over from my father, I look forward to growing the company while staying true to the values that have made Farminpex a great place to work and a respected organization within our industry. We work to build meaningful and above all mutually beneficial relationships with our customers, being a laboratory diagnostics supplier with strong technical support, strong logistics support and strong educational support, earning your trust along the way by keeping our promises and doing the right thing as we focus on you, our customer.

This teaser catalog offers a first look into the breadth of products available to you through Farminpex. It is with pride that we maintain and grow our portfolio through partnerships with some of the world's most renowned IVD manufacturers, many of them pioneers in both science and technology in their respective fields.

In the face of new technologies that may bring about significant changes to the healthcare and laboratory landscapes, we seek to constantly innovate with the purpose of making quality laboratory diagnostics accessible to all communities in the Caribbean. While we strive to be Your First Choice Partner in Laboratory Automation, we recognize that business remains about people interacting with people, and people are what our industry is all about.

We look forward to collaborating with you. We welcome you as our customer and cheer for a great future together.

*Thank you for your business!*

**Neyla Diaz**

# Farminpex

## Your First Choice Partner in Laboratory Automation

### VISION

Building Healthy Communities

### MISSION

Farminpex is committed to be the **First Choice** Healthcare and Industrial diagnostics supplier in the **Greater Caribbean**.

We choose to offer a wide range of **high quality** products and services.

We aim to form **partnerships** while taking care of profit and planet.

### CULTURE

- ▶ We are a dedicated and **Fun-loving** group of people.
- ▶ We believe the world is an **Abundant** place.
- ▶ We are **Resourceful**, striving to always find a solution.
- ▶ We are **Meticulous** in our work, so you always get the best we can offer.
- ▶ We continuously seek to **Inspire** ourselves and others.
- ▶ We **Nurture** relationships with our customers, colleagues and suppliers.
- ▶ We take pride in achieving the highest levels of **Productivity**.
- ▶ We work hard on ourselves so we can be **Excellent**.
- ▶ As a team, we make the customer experience **Xtraordinary!**
